Subject: Request for help and support for donation of galvanized irons and other materials
for dogs and cats' shelter

Dear company owners, householders, and kind-hearted persons,

Currently "Sick Stray Dogs and Cats Fund" is suffering and in deadly trouble since my contribution and devotion for helping hundreds of stray dogs and cats especially "sick dogs and cats" for 15 years until now becomes "my fault". I have been hated, persecuted, offended in many ways, oppressed, untimidated, exploited, and slandered. I have almost not survived from these threats following me as my shadow. Almost 300 dogs and cats now totally destroy my whole life. I am broke and very weak. I have to work every day without any time to rest. I sleep only 2-3 hours a day I don't have time even for my meals. My breakfast is at 1 a.m. and sometimes at 3 am Now I am sick with many deceases especially an allergy. Often. I cannot breathe smoothly so I have to breathe by my mouth. I have to take the medicine spray with me all the time. I also have gastritis, thyroiditis, heart trouble, optical problem, and hand foot and mouth Syndrome. I have a duty to find rice, pet pellets, canned pet food medicine, vet fees, and medical charges for sick dogs and cats.

Recently I have been ordered by the government official to move a group of dogs helped from poisoning on 8 Feb 2010 The official gave me 3 months time as my request. The deadline has ended on 8 May 2010. Now I cannot move them out because I cannot find the right place for them on time. Throughout 3 months I tried to find the place. I had spent on my extra car gasoline everyday from normal that I spent on gasoline for giving meals to dogs and cats along the road. Normally my life is very difficult from spending for w ater supply, electricity, medicine, medical care, hospital, etc. The place must be away from community and the land must be filled. Now I have just got the place with 1.600 sq. m. Its 3-month deposit was THB 39,000 (Thirty nine thousand Baht only) 'The builder has calculated material quantity for 4-side fence and roof for shelter. The construction needed 1,500 plates of 10-feet galvanized iron and more materials and equipments needed to be donated as follows.

1. 1,500 units of 10-feet galvanized iron
2. 1,500 units of 1.50 meter Roman tiles, 80 units of 6-8 mm. smooth tiles, 50 units of transparent tiles
3. 300 units of 3-4 m. bamboo or planks
4. 50 sets of fluorescent sets
5. 2 coils of wires
6. 2 units of 200 Watt water pumps
7. 100 units of 6-8 mm. plywood
8. 4 units of 5-8 cubic ft. refrigerators for dog and cat medicine and vaccine, and food
